

BIO5 INSTITUTE  
*FELLOWS*

BIO5 Fellows are scientists who have expressed a desire to work in a hub for innovation and creativity, with a translational focus towards developing new technologies, diagnostics, and treatments to solve humanity's grand biological challenges.

Bonnie Hurwitz, PhD

Assistant Professor of  
Agriculture and  
Biosystems Engineering

**Research Focus:**  
The relationship between  
the environment,  
microbial communities,  
and their host.

From RESEARCH

to IMPACT
